Introduction to Your Birth Chart Report

What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you'll find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign.

If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Additionally, aspects between the planets are listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case. Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days. Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (for example, the Sun changes signs every 30 days or so).

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be timid in love and aggressive in business, for example. As well, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the major benefits of astrology is the chance to understand ourselves so that we can work with our natal charts and improve ourselves. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations are more detailed than others. You can use this as a starting point and do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart interpretive report, and a chart wheel appears at the end of the report.

Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

Natal Chart Report

Birth Chart

This birth chart report shows the positions of the planets for Lyn.

The Sun

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

The Sun is in Sagittarius

Restless, cheerful, and friendly, Sun in Sagittarius people are generally on the go. They have a great love of freedom and a disdain for routine. Generally quite easygoing, Sagittarians make friends with people from all walks of life. They love to laugh and tease, and they get along well with people from all walks of life. Sagittarians often have blind faith in people--and in the world. Their optimism is infectious, although it can get them into trouble from time to time. These are curious people who love to learn. Their idealistic nature is hard to miss. Their optimism that everything will work out can lead to overload or making hard-to-keep promises.

Although generally unruffled, Sagittarius is a fire sign, giving a generally quick temper. Fortunately, they're usually as quick to forget what got them angry in the first place. The need for escape is typically strong, and some Solar Sagittarians come across as a little irresponsible. They're generally easy to forgive, however. After all, their direct, honest approach to life is admirable.

Short description:

They are good, idealistic, enthusiastic, and warm-hearted. They are independent, having a taste for travel and freedom. They are curious and fair-minded.

Possible issues: They are too adventurous and may leave things to chance; may take risks which cause problems; they are rebellious and sometimes tactless when offering opinions.

Sagittarius with ascendant Pisces

Sun in X: The Sun is in the tenth house

The urge to work toward a goal, for success and accomplishment, or for power is part of your make-up. You are uncomfortable in any position where you must "take orders" from someone else.

Advice: Recognize your ambitions and your need for authority without going overboard, as it can be excellent for your health and vitality. Seek a career that allows you to manage rather than be managed, if possible. It's better to accept the part of you that is ambitious but take pains to avoid over-identifying with an image that isn't genuinely you! A successful career is guaranteed, but it sometimes comes late.

Key points:

They always seem to attract attention or get noticed. They like to be seen in winning situations. A competitive spirit, a leader.

-20 Square between the Sun and Jupiter

You have abundant optimism. Even with ups and downs, you tend to hook onto a new plan or goal and believe in it wholeheartedly. Although your intentions are good, you often overdo things. For example, you might gloss over realistic details and get into debt, overindulge in pleasures, or promise more than you can deliver. For the most part, you find help for your excesses. Somebody's usually there to help, as most believe your heart is in the right place. While this is usually the case, if excessive behavior becomes a pattern and you continually face light consequences, there is the danger that you will not learn from your mistakes and abuse the "system," relying on others to help you out a little too often.

However, many people with this aspect don't fall into the trap of losing their sincerity. You are generous, helpful, and charitable. Your good humor and resilience are admirable. The tendency to live beyond your means can remain a potential threat that you might struggle with for much of your life. Another thing to watch for is depression. You tend to go through periods of intense highs when you are excessively optimistic. These periods are so marked that they seem unnatural, and a fall seems inevitable. You can make promises you intend to keep but need help with follow-through. Self-control is something you learn with time and experience. Your talent lies in the big picture or the great idea. Knowledgeable and generous with your time, you have many talents that you shouldn't take for granted.

58 Trine between the Sun and Saturn

It's natural for you to accept responsibilities, lead a rather ordered life, and apply caution in your financial and business dealings. This aspect helps stabilize and ground you, giving you a realistic side. You rarely jump to conclusions or take uneducated risks. You have a certain amount of patience and enough self-discipline to slowly but surely achieve what you set out to do.

Although somewhat undemonstrative, you are generally loyal and responsible to those you care about. You take your time in many of your endeavors and generally use a step-by-step approach to most projects--but you steadily reach your goals.

This aspect gives you some seriousness. You are naturally trustworthy, and you have little patience for people who don't show respect for others, who take foolish risks, and who lead chaotic lives.

Key traits: They are grounded, reasonable, level-headed, fundamentally responsible, and deliberate. They benefit from a solid and realistic sense of self and understanding of their capabilities.

The Moon

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person expresses themselves when at home, at ease, and comfortable.

The Moon is in Sagittarius

More than anything, Lunar Sagittarians need personal freedom and space. They are extraordinarily happy and easygoing folk--as long as they don't feel caged in or cooped up. Lunar Sagittarians have a simultaneous need for activity. Meeting new people, going out in the world, or traveling are all important to their well-being. They love open spaces and, in their homes, a roomy and bright environment.

There's a bit of a teacher in Moon in Sagittarius, and definitely a helpful spirit. They easily forget appointments or veer from their schedules, and some are even considered irresponsible. However, it is hard to stay angry at a Lunar Sagittarian! They are just too cheerful and upbeat, and their optimism is catchy.

Many people with this position are outdoorsy. At the very least, they have a great love for friendly competition. When the going gets tough, these people get moving. They don't like to be caught up in routine for too long, and they need frequent escapes.

There's a blind faith in Lunar Sagittarians that is admirable--they believe that everything will ultimately work out. Not much for making detailed plans, people with Moon in Sagittarius prefer to wing it and deal with whatever comes their way when it comes. They're very adaptable and generally on the go.

Those with a Sagittarius Moon strive for personal freedom, space, happiness, truth, and activity. Meeting new people or learning new things is emotionally refreshing. Even with well-laid plans, Moon in Sagittarius often ends up veering from the course.

Short description:

May like to throw themselves into the unknown and into adventure; they are agile, tough, and enthusiastic. Attracted to long voyages or discovering the unknown; having a need for escape or flight and room for spontaneity.

Potential issues: may take great risks in throwing themselves into the unknown. Audacious, bold, and rebellious. Unable to stay in one place, always ready to risk everything to achieve their goal.

Moon in IX: The Moon is in the ninth house

They are highly imaginative. Prolonged studies, intuitive. Professionally successful abroad, in import-export, or as a diplomat. Sensitive, warm contact with foreigners. Long journeys. Ability to learn foreign languages.

This position can indicate a deep longing for stimulation above and beyond the everyday, mundane routine. You are a philosophical sort, interested in and curious about the world, other people, and different cultures.

You can be extremely restless and discontented if you don't have a definite goal in mind. You might long to be somewhere else when you are unhappy, imagining that you would be much happier if you were to move or travel. However, this attitude might keep you from enjoying and improving upon the situation you are now in, only serving to make you feel more unhappy in the present and with your current circumstances. Trying to avoid the feeling that "the grass is greener on the other side" will be important, while attending to your needs to get away from time to time will help scratch the seemingly incurable itch for something more.

Innately optimistic, you find meaning in the things that happen to you, and you follow your instincts. The need for emotional space is strong, requiring adjustments in certain close relationships.

110 Conjunction between the Moon and Mercury

You are quite expressive and animated in your speech. Not only do you have an outstanding memory, but you also pick up a lot of information from your environment. You love to chat and exchange ideas. Even if you are shy, once you're friends, you love to talk about pretty much anything under the sun, and you enjoy sharing stories from your past!

Much of the time, your communications tend to center around day-to-day activities more than grander philosophies. Naturally interested and approachable, others find you very easy to talk to. You are accommodating and curious, but you are not as well-equipped to handle heavy emotional demands. You thrive on change and variety. You might be a little addicted to gossip! More probably, however, you have a deep curiosity about others.

There is a twinkle in your eyes, and you are never short on humor. You are playful and versatile--you make a fun companion and an interesting friend. You listen! Yes, you do talk and occasionally interrupt in your excitement, but you are interested in what others have to say, which is a real pleasure. In fact, you are more able than most people to get others talking simply because you are very receptive and sympathetic. You also pick up others' feelings and body language readily.

Key traits: They have sound judgment, a good memory. They are intelligent, imaginative, vivacious, and vibrant. They develop, adapt, and grow throughout life. This aspect combination adds a youthful, lively quality to the personality. There is a great need to express themselves, whether through conversation or the written word. When emotions are overwhelming or stuck, writing could help. They may have an aptitude for, or interest in, learning foreign languages.

173 Sextile between the Moon and Mars

You are a passionate person who loves life. Although your emotions are powerful and immediate, your passion is generally controlled and directed. You are a sexual person who nevertheless doesn't get too carried away or controlled by your passions. Because your

emotions are strong and you know how to channel them into constructive channels, you don't easily understand such things as "crimes of passion", impulsive behaviors, or emotional excitability in others. You're generally open, accepting, and natural in your sexual expression. You need an emotional connection in order to feel complete on a physical level. You may have an affection and talent for sports, but other factors in the natal chart are necessary to provide the motivation and commitment.

Short description: They are frank, honest, full of vigor and ambition. They are strong-willed and powerful at work. They are a little hard on themselves but perhaps more on others whose capacity for action is not as great or inherent.

238 Sextile between the Moon and Uranus

They are imaginative and benefits from the Moon's intuition complemented by Uranus' independence and originality. Their life is out-of-the-ordinary, with lots of changes and a great knowledge of the world not necessarily through reading but through personal experience and brilliant intuition. They like the sensational, new things. They act instinctively, but fortunately has a good sixth sense. They like to be surrounded by original people, artists.

266 Conjunction between the Moon and Pluto

They have a strong sense of family, profound feelings, and may especially like children and animals. If there are changes in their professional life, they are most often for the better. There is a sense of forward movement, popularity with those in authority or in the professional life.

Mercury

Mercury represents communication, Cartesian and logical spirit.

Mercury is in Sagittarius

Enthusiastic, humorous, and sometimes moralistic. They have strong opinions, and will often be eager to share them! Democrat, philosopher, tolerant, respectful of laws. Interested in foreign places and learning more languages. They believe that everything teaches you something.

Mercury in IX: Mercury is in the ninth house

Their thirst for knowledge is never satisfied. They are mentally active. They may undertake

exhaustive studies, always studying for pleasure. Can very much enjoy journeys to faraway places, and may go to live abroad.

You are eternally curious and hunger for knowledge. You enjoy studying and learning, and do it not because you have to, but because you want to. You enjoy exchanging ideas and personal philosophies with others. You can be especially buoyant, enthusiastic, and even inspiring in your communications. While you may not pay enough attention to details, you are skilled at finding a quick solution to problems. You readily see the bigger picture and enjoy sharing your opinions and ideas. You get off on how information affects people's lives, and you take great pleasure in learning that something you have shared or taught has inspired others to take action, experience something new, or make changes in their lives. Some of you might be too quick to offer advice, however, that might be lacking in thoroughness and practicality, or that you yourself don't follow.

-48 Square between Mercury - Ascendant

They may criticize and gossip, arguing frequently and often nervous. Without even realizing it, they might look for or instigate a verbal battle, and can be provoking.

Communication is very important to you, and your mind is sharper and more creative when you have a partner you can bounce your thoughts and ideas off of. You are an excellent conversationalist and can fascinate your partners with your sharp mind. You love to debate issues just for the mental exercise, even if you don't feel strongly about the position you argue! You play devil's advocate often, and your ideal partner understands that your debates are, in fact, mental exercises--certainly not attacks! You are also prone to exaggerate or stretch the truth when trying to make your point, especially when it comes to your own background or experience.

In your close relationships, your partner serves as a mirror, reflecting your thoughts and ideas back to you from a different perspective. You are rather independent and will not allow anyone to restrict your freedom, but you love to talk things out before arriving at a decision. Truth is, you won't always take others' advice! However, you do enjoy looking at problems from all sorts of different perspectives. You may choose partners who are considerably

younger than you, or who are not as academically smart as you. Conversations with you are always stimulating and lively. The ability to share your thoughts with a partner is vital to your sense of fulfillment in a close personal relationship.

They like some measure of predictability in their relationships as they are cautious in love.

Venus in Capricorn people project an aura of competency and their loner-like behavior can be attractive, in a cool way. They don't go gaa-gaa over love, or at least they don't express as much. Their lovers may complain that Venus in Capricorns are a little too practical and deliberate. Certainly, they can come across as lacking in warmth and spontaneity. Truth is, they can be rather romantic souls who yearn for a partner to share their lives with. Others' image of their relationship matters to them. They are conservative and willing to commit. Venus in Capricorn people are attracted to serious, goal-oriented lovers. They are a little shy in matters of the heart, but they don't want you to know it. If you like knowing where your relationship is headed, you'll be mighty pleased with Venus in Capricorn. These people plan ahead in love, and, unlike Venus in Pisces, they will let you know exactly where they (and the relationship) are headed. Pleasing Venus in Capricorn involves showing them you are practical and realistic. They want to impress you with the things they do. Appreciate their "saving for a rainy day" attitude, and be aware that they want to show you off in a quiet way.

Venus in XI: Venus is in the eleventh house

The friendship level of your relationship needs to be genuine in order for you to sustain romantic interest. You tend to focus on a person's unique qualities -- those traits that make him or her stand out -- as the most attractive. Your relationships must possess some kind of unconventional element in order to keep your interest levels high. Calves and ankles are either erogenous zones for you, or parts of your body that are particularly attractive! You may

meet lovers through group activities. Although you value friendships and group affiliations highly, you might jump into friendships without considering the responsibilities they might entail.

Especially when you are young, there can be a real awkwardness with your social skills--this may or may not be apparent to others.

You are highly creative and generally are driven to express that creativity. Your passion for romance is often channeled into your creative output. For example, challenges in relationships may be a large part of the drive behind your poetry, music, or other art.

Love and hate are very much mixed together for you. You are prone to love-hate relationships with others, likely because your passions are such that the old saying "there's a fine line between love and hate" rings especially true for you. Some level of competitiveness, anger, frustration, or angst is present in your romantic relationships. Although you are quick to anger, you are generally just as quick to forget about it.

Still, they always play innocent when they are challenged, and can generally charm the birds out of the trees to win your favor. Passive-aggressiveness is practically the hallmark of this position. North Node-South Node

They tend to retreat or escape when times are tough, and while they are a compassionate and perceptive person, they may limit their luck and opportunities by avoiding the realities of their life. When they do not know all the facts, they may live in fear of them! Their path is to pay more attention to details and routines, even if these feel uncomfortable at first. Doing so will build emotional and physical health. Qualities to develop: proactivity, diligence.

The Houses

House I is the area of self identity. The ascendant is a symbol of how one acts in life. It is the image of the personality as seen by others, and the attitude that one has towards life.

Sagittarius with ascendant Pisces

Ascendant is Pisces

"Go with the flow" seems to be a Pisces rising motto. They move about the world in a vaguely directionless, gentle manner. They come across as artists and lovers of peace; but their open minds and hearts can give them a chameleon-like persona. Others are not always sure who they'll meet from one day to the next with a Pisces rising person. Although often quiet and shy, another day may find them talkative and passionate. They are hugely impressionable, have a dreamy disposition, and project a soft-hearted personality. Pisces rising sees the world the way they want to see it at any given time, so objectivity is not necessarily a strong point. Neither is decision-making! People with Pisces rising resist any kind of labeling--their characters are changeable, and they don't want to be pinned down or pegged in any way. Theirs is a restless, searching nature that cannot be happy with any one way of living or being. Pisces rising avoids cold, hard facts and harsh realities like the plague. They don't have a decisive plan for tomorrow or even today, preferring to keep things open. Since they change their minds frequently enough, and like to "feel" their way through life, too much organization or structure can be seen as very limiting.

Pisces rising people walk around with their heads in the clouds, and even when you do have their attention, their dreaminess is almost always apparent. These people look for a stable partnership--one that is reliable. Pisces rising people gravitate to partners who keep them on their toes, and they often will pass off the little details and reality checks to their significant other. They seem to need a practical, realistic partner. Pisces Ascendants often have a sensitivity to drugs, and sometimes are prone to allergies that come and go. Their physical constitutions seem to be less resistant than most. Pisces rising people often possess an irresistible charm that comes on in a quiet way, with a soft aura about them. Both their appearance and mannerisms are usually quite intriguing to others.
